## Work Experience:

### **Veritude Technical Internship at Fidelity**, May 2015 – Present.

I am currently gaining experience in the web development environment under the close guidance of Jonathan Baumann, a senior developer with Fidelity Investments. I am now involved in building a multi-page export form in AngularJS.

### **Web Development Project**, December 2013 – Present.

I have designed, built, and maintained my professional website using HTML5, CSS3, JavaScript, and AngularJS. Many of the skills that I have acquired during my internship at Fidelity, notably AngularJS, I have implemented in my website to enhance the functionality and design.

### **Ingles Market Deli**, May 2013 – September 2014.

- **Main Duties:** Serving upwards of 100 people per day, working with a team of 5 to 8 people, time management, customer service, and monetary transactions.
  - **Achievements:** I trained 7 new employees, received a raise for excellent work, and was personally commended by the store manager, Tim Owenby.
- 

## Education:

### **BS in Computer Science at UNC Asheville**, August 2011 – December 2015 (expected).

- **Notable Coursework:** Calculus 1 – 3, Systems Development Management, Data Structures, Computer Organization, Computer Architecture, Intermediate Spanish II.
- 

## Skillset:

**Programming Languages:** HTML/CSS, JavaScript, AngularJS, Java, and C#.

**Operating Systems:** Ubuntu, Windows 7 and 8, Mac OS, and Android.

**Personal Skills:** Ambitious, self-driven, great interpersonal skills, creative problem solver, and excels at helping others.

---

## Clubs & Organizations:

**Co-Leader of Public Relations for Muslim Student Organization**, *Sophomore Year*.

- **Main Duties:** Collaborated with another student to design posters for events, manage mailing lists, Twitter, Facebook, and attend meetings to discuss the direction of the organization.
